BALANCE TRANSFER

How will a balance transfer affect interest charged on purchases? If you transfer a balance, interest will be charged on purchases made with your credit card unless your purchases have a 0% APR or you pay the entire balance (including any transferred balances) in full each month by the payment due date.

When will interest start to accrue on the balance transferred? Interest will start to accrue the day the balance transfer transaction posts to your account, unless your balance transfer is subject to a promotional APR of 0%. In such case, no interest will accrue on the balance transferred until your 0% APR promotional time period expires.

Will I receive rewards on the balances I transfer? No. Balance transfers are not eligible to earn rewards.

Do I need to make payments during the promotional period? Yes. You must pay at least the minimum payment due by the payment due date. If you do not pay this amount by the payment due date, you may lose your promotional APR.

Can Navy Federal refuse certain balance transfers? Yes. Only balances from other card-issuer accounts are eligible for transfer. **New accounts:** Balance transfers must be requested within 60 days of account opening. **Existing accounts:** Balance transfers must be requested at the time of acceptance of the offer.

How much can I transfer? The maximum total transfer amount is limited to your available credit line, but no single balance transfer can be greater than \$30,000.

Are there exclusions? Yes. The offer excludes Navy Federal Business cards and Home Equity Line Platinum credit cards. It also excludes balance transfers using convenience checks.

When will the balance transfer post to my account? We will process the balance transfer within 10 days of your transfer request. This will allow you time to receive and review the disclosures that come with your new credit card. Once processed, the balance transfer will appear on your Navy Federal account and we will send payment to your other financial institution. Please allow up to an additional 14 business days for your other financial institution to receive and process the payment. **Existing accounts:** A balance transfer is typically posted to your account within 14 business days after your transfer request. **New and existing accounts:** While waiting for the balance transfer to pay off your other account(s), please continue to make payments to your other account(s) to avoid any late charges or delinquency.

Is there anything else I should know? Yes. You should be aware that if you transfer your balance from another account, you could lose your right to dispute any of the charges paid off as a result of transferring your balance.

ADDITIONAL CREDIT CARD TERMS AND CONDITIONS

How are my payments applied? In general, we will apply your minimum payment first to interest and then to fees before applying it to transaction balances. If your account has transaction balances with different APRs, we will apply the minimum payment first to the balance with the lowest APR before balances with higher APRs. Any payment amount received in excess of the minimum payment will be allocated to the balance with the highest APR and any remaining portion to the other balances in descending order based on the APR.

Can I authorize another person to use my account? Yes. You can add an authorized user to your account. Authorized users can use your account subject to the terms and conditions of the Credit Card Agreement and Disclosure. You are responsible for any use of your account, including paying for any charges made or allowed by an authorized user. A credit report will not be pulled for authorized users. However, we will report account performance in the authorized user's name to the credit bureaus.
